FEEL
SECURE

CO

Hello is not just a greeting. Hello is security. It is the guarantee to say hello only to those you want. Hello is the security of always knowing who is approaching your home.
It is the certainty of reliability and the beauty of innovative technology. Hello is Comelit.
For the home.
For life.

Hello

Comelit is a leading video door entry system company that ensures security, reliability and ease of installation. Our proven quality spans the entire security ecosystem: intrusion detection, access control, video surveillance, home automation, fire detection and evac..

SINCE 1956, COMELIT HAS BEEN DEDICATED TO TURNING OUR VISION OF TOTAL SECURITY INTO A REALITY.

A Legacy of Leadership and Innovation

For nearly 70 years, we have been **recognized internationally** as a leader in door entry systems, celebrated for the quality, innovation, reliability, and ease of installation of our products.

Over time, we have expanded our expertise to encompass a **full range of security solutions**, including access control, fire safety systems, video surveillance, home automation and intruder alarms.

Our growth has been strengthened by strategic acquisitions, which, alongside our **research and development** centers in Rovetta, Bergamo, Tunis, and Paris, have established specialised hubs of expertise. These include PAC in the UK, Teletek Electronics in Bulgaria, Blueprint in Italy, and, most recently, Ingenium in Spain.

Today, our global footprint extends far beyond our Rovetta headquarters, **with 9 international subsidiaries, 8 research centres, over 1,000 employees, and a presence in more than 90 countries.** This robust structure enables us to deliver greater value to our partners and end-users alike, fulfilling our commitment to creating a safer world every day.

> "The history of Comelit is shaped by the trust and confidence of those who have chosen us for their projects and achievements."

We believe
in a safer world

Comelit believes in a safer world, a world where the safety of individuals, places and things is possible and is for everyone. We are driven by the desire to make our contribution to the cause of security; we believe strongly in these values. They are the propellant that drives us every day, without the fear of making mistakes, to seek technological solutions that contribute to making the world a safer place to live.

Comelit App

The security of always being there, even when you are not.

A service that makes a difference for our customers. We have created a single APP for controlling the entire home remotely-a solution that makes COMELIT the choice of those who want top security with maximum simplicity. A simple interface, created around the best user experience, allows the user to easily access and control all installed Comelit systems directly from their smartphone. Comelit App is a smart, touch-friendly and constantly evolving solution.

Always know who's at your door

Unlock doors remotely

Check the cameras

Generate and share temporary access codes

Controls lights and actuators

Manage home automation and anti- intrusion

elevator control

Available on the App Store

SteelTouch

Elegance finds space everywhere.

→ Brushed AISI 316 stainless steel, essential lines, perfect geometries. **SteelTouch 5"** adapts harmoniously to any context, even where space is limited. Wall-mounted or built-in, it always finds its ideal location, integrating discreetly and stylishly into the surrounding architecture. Its 5" touchscreen offers intuitive interaction and immediate access. Available in audio/video versions, with a range of exclusive accessories that expand its versatility and meet every need with precision and reliability. Compact, flawless, tailored to every environment.

SteelSwitch is the minimal and elegant COMELIT solution that offers endless options. Thanks to its unique, made-in-Italy design, **SteelSwitch** makes it possible to switch between audio and audio/video systems easily, quickly and economically. Its structure allows countless combinations, allowing you to switch from 1 to 26 buttons, divided over 1 or 2 columns, with flush-mounted or wall-mounted installation. The elegance and durability of brushed 316 stainless steel are the highlights not only of the pushbutton panel but also of the individual buttons already mounted flush and wired while maintaining easy removability of tags from the front.

Endless solutions,
Endless choices.

VIP IP

Ready for anything, safe anytime.

The push button panel designed specifically to withstand any vandalism and stressful conditions. Comelit's **Vandalcom** features IK10-rated stainless steel construction, making it robust and durable over time. With this panel you can solve the security problems of the most demanding customers, giving a unique and fully certified solution.

Vandalcom

Classic taste, timeless design, superior quality. **Roma** is the door station suitable for prestigious projects for new buildings or the renovation of historic buildings. Available in three different finishes, brass, anthracite and bronzed, **Roma** is the ideal solution for those seeking the right compromise between elegance and technological innovation. Equipped with a front plate made of 3 mm thick plates with PVD (Physical Vapor Deposition) treatment, Roma guarantees high resistance to use and corrosion.

Roma

Elegance at first sight.

**Your safety,
our priority.**

Emergency

The **Emergency** panel is the benchmark for critical situations, ensuring quick and reliable contact in any context. Made to meet ADA standards, it ensures maximum safety and accessibility, fitting perfectly in parking lots, hospitals, commercial buildings and public spaces, where every second counts. Inclusive and intuitive, it is designed for everyone: braille indicators, raised text, visual and audible signals make every call accessible, because emergency admits no obstacles.
